SURGICAL SKILLS

From July 2013 to today

I attended as first aid to more than 500 interventions of emergency surgery and 150 as first operator, with standard open approach and laparoscopic one.

Particularly, i have performed laparoscopic cholecistectomies, laparoscopic appendicectomies, laparoscopic explorations for gastric perforation, laparoscopic explorations for white weapon abdominal wounds, Total colectomies for ischemic disease or occlusions by cancer disease, ileal resections, recanalization after Hartmann procedure, closure of ileostomies.

As first aid, i have performed duodenopancreatectomies, splenopancreatectomies and total pancreatectomies; these, both with open standard techniques and minimally invasive such as laparoscopic and robot assisted.

The same for liver resections: i was first aid on major and minor open liver resections, laparoscopies and robot assisted ones.

I also attended at the organ prelevement from cadaver, liver, pancreas and reins: I participated at more than 30 liver prelevements of whom 15 as first operator. I also performed the table preparation of all the organs prelevements, being present as first assistant at all the liver transplantation particularly.
