

CURRICULUM VITAE	
INFORMAZIONI PERSONALI	
Cognome e Nome	Bisconte Pinadelia
Data di nascita	23-06-1986
Qualifica	Odontoiatra specialista in Ortognatodonzia

Amministrazione	Asst Melegnano-Martesana
Incarico attuale	Dirigente Odontoiatra
Numero telefonico Ufficio	
Fax Ufficio	
E-mail istituzionale	pinadelia.bisconte@asst-melegnano-martesana.it

Titoli di Studio e Professionali ed Esperienze lavorative	
Titolo di Studio	Laurea Specialistica in Odontoiatria e Protesi Dentaria
Altri titoli di Studio e Professionali	Specializzazione in Ortognatodonzia
Esperienze Professionali (Incarichi ricoperti)	Odontoiatra collaboratore esterno presso strutture private e convenzionate dal 2012
<i>Indica le date di inizio e fine e l'Incarico o l'Attività</i>	

Capacità linguistiche	Lingua	Livello Parlato	Livello Scritto
<i>Indica se il livello di conoscenza è scolastico o fluente</i>	Inglese	Scolastico	Fluente
	Francese	Fluente	Fluente

Capacità nell'uso delle tecnologie		Capacità
<i>Indica se la capacità è scarsa, buona o ottima</i>	Applicativi	Ottima
	Office	Ottima
	Data base	Ottima
	Navigazione Internet	Ottima
	Posta Elettronica	Ottima
	Altro (specificare)	

Altro (partecipazione a corsi, convegni e seminari, pubblicazioni, collaborazione a riviste, ecc., ed ogni altra informazione che il dirigente ritiene di dover pubblicare) <i>Indica le date di inizio e fine e l'Attività</i>	• Three-Dimensional Evaluation of Mandibular Growth • OSAS in the Adult Patient: Review of Literature and 3D Evaluation in Patients Undergoing Bimaxillary Advancement Surgery • A new methodological and clinical approach for the treatment of upper lateral incisors agenesis: the posterior space opening • Eruptive molar seconds and orthodontic surgical solutions • Localization of Temporomandibular Joint in Juvenile Idiopathic Arthritis • Rapid Palatal Expander and Occluso-O-Guide in the treatment of second skeletal classes • Evaluation of Arc Shape Following TSME Therapies: Experimental Study • Functional and Postural Analysis in Subjects with Maxillary Hypoplasia Treated with Rapid Palatal Expander • Evaluation of nitric oxide stress levels in the orthodontic patient • Friction forces in self ligating brackets • Odontogenic Cysts and Surgical-Orthodontic Recovery of an Element Included • The Orthodontic-Surgical Treatment of the Third Skeletal Classes • Influence of orthognathodontic treatment on craniofacial development: evaluation of a sample of patients with complete monolateral labiopalatoscosis at the end of growth • Forecast of mandibular growth: reliability of diagnostic tools • Orthodontic relapse: analysis, prevention and containment methods • Prophylaxis and risk of separation of the brackets during treatment: updates of the experimental comparison of different methods
---	--

	• Changes in upper airways following mandibular propulsions treatment • Oral Devices in the OSAS: Clinic and Instrumental Confirm • Orthodontic Treatments of High Aesthetic Value: Patient Preferences and Analysis of the WTP Index • Aesthetic Perception of Smile: Review of the Literature • Extractions of Third Molars in Orthodontic Therapy; The Role of CBCT as Aid in Diagnostic and Therapeutic Phase • Orthodontic treatment of periodontal teeth with guided tissue regeneration • Rapid Palatal Expansion: Study of Postural Modifications by Stabilometric Platform • Effectiveness of Anti-Inflammatory Drugs for Pain Control During Rapid Palatal Expansion • Correlation between masticatory musculature, joint function and lower impacted third molar through electromyographic examination and stabilometric platform • Orthopaedic vs Surgical Expansion of the Palate • Correction of Cross Bite: Evaluation Through Reverse Engineering • Photometric longitudinal evaluation from 5 years to the end of growth of a sample of patients with complete labiopalatoschisis • Electromyographic Evaluation of Functional Therapy with Activator • Agenesis in a Patient with Alagille Syndrome • Neuromuscular Evaluation of Masticatory Muscles in Professional Skiers • The Timing of Closure of Extraction Spaces: Self-Ligating vs Traditional Appliance: In Vitro Study • Straight Wire Appliances: Standard Versus Individual Prescription • Orthodontic management of periodontally compromised teeth. Review article • Extraction of Deciduous Included and Disinclusion of Second Lower Premolar: A Case Report • Maxillary sinus: volumetric study with CBCT • Germectomy of wisdom teeth: volumetric analysis with CBCT • Evaluation of Fluoride Saturation and Decay: experimental analysis with XPS and ISE techniques • Rapid Palatal Expander: Evaluation And Control Of Pain Perception • Three-Dimensional Morphological Evaluation Of The Upper Airway In Osas Patients After Oral Appliances Therapy • Rapid Maxillary Expansion: Study Of Postural Changes Through Stabilometric Platform • Orthognatic Surgery: Checking Of The Pre Orthodontic-Surgical Virtual 3-D Programming Reliability • Oral Breathing And Athopy • Management Of Missing Maxillary Lateral Incisor • Correlations Between White Spot Lesions And Fixed Orthodontic Treatment • 3D Soft Tissue Cephalometric Analysis • Extraction Of Deciduous Included And Disinclusion Of Second Lower Premolar: A Case Report • Upper Airways Modification Following Mandibular Thrust Treatment • Germectomy of Third Molars in Orthodontic Therapy: Usefulness of Volumetric Analysis with TC Cone Beam • Oro-Facial Findings in Orthodontic Alagille Patient: First Documented Case Presenting Multiple Agenesis • Prevention of the palatal inclusion of the upper canines: 3 cases in comparison • Mesiodistal crown dimension and tooth size discrepancy of the permanent dentition of an orthodontic population: analysis performed by intraoral scanner • Progress Evaluation of 5 Clinical Cases Treated with the Froggy Mouth Device • Epidemiological Survey on Dental Mesio- Distal Crow Dimension: Analysis Performed by Intraoral Scanner • Correlation Between Resting Tongue Posture and Dental-Alveolar Malocclusions • Correlation Between Resting Tongue Posture and Skeletal Malocclusions • Role of Tongue Posture in the Development of Malocclusions • Temporary Anchorage Devices (TADs): Literature Review of the Factors that Determine Success or Failure • Predictability and Effectiveness of Derotation of Premolars with the Invisalign® System • Clinical and Radiological Features of An Achondroplastic • Patient Radiographic Evaluation of Patient with Multiple Agenesis
